The International Baccalaureate (IB) Diploma Program is a rigorous pre-university program leading to assessment in six major subject areas. The IB offers challenging curriculum noted for its depth and its international perspective. The two-year IB Diploma provides a coherent and demanding educational experience across the full curriculum. Beyond the exposure to college level course work and examinations, IB students also engage in community service, individual research, and an inquiry into the nature of knowledge.

IB Diploma students take one subject from each of the six subject areas illustrated on the Shape above. This course selection results in a balanced arts and sciences curriculum.
